

QuestLine

Free Industrial Help Line

Assistance with manufacturing problems in Oberlin is now just a telephone call away thanks to *Questline*, a new program offered to customers of OMLPS. *Questline* provides information on just about any subject in a wide range of topics such as technical, economic and environmental issues, manufacturing-related problems, marketing and just about anything else you can think of. It's like having a free engineering firm at your fingertips. *Questline* takes questions over the phone between 8 a.m. and 5 p.m. Monday through Friday and by fax or e-mail 24 hours a day. You can contact *Questline* with your information request by dialing toll-free (800) 824-0488 or by submitting your request from the *Questline* home page <http://www.questline.com/ampohio/>. If your question can't be answered while you are on the phone, *Questline* will have an answer within five days or less. Normally it's less.

Even retail and small commercial companies can access *Questline* to acquire absolutely free information. One example could be a fast food outlet or retail store needing new air conditioning and wondering how many BTU's are appropriate for a specified square feet of space.
