

Security Lighting Program

For the safety and security of our residential and commercial customers, OMLPS offers a security lighting program. OMLPS will furnish and install a security light for the cost of the materials only. (No labor charges will apply). A monthly fee for the use and maintenance of the light will be charged on your utility bill and the amount of the fee will depend on the type of security light chosen. OMLPS offers (1) residential type security light system and (2) commercial type security light systems. RESIDENTIAL OMLPS will install either a 70 or 100 watt High Pressure Sodium (HPS) light on an existing pole (if possible) or a new pole. Monthly charge for this type of light is \$5.00 per month. Material charges range from \$55 to \$165 depending on the materials required for installation. COMMERCIAL

OMLPS will install a 250 watt High Pressure Sodium (HPS) light on an existing pole (if possible) or a new pole. Monthly charge for this type of light is \$9.00 per month. Material charges range from \$210 to \$320 depending on the materials required for installation. OMLPS will install a 400 watt High Pressure Sodium (HPS) light. Monthly charge for this type of light is \$12.00. Please call for material charges.

To receive more information on the security light program or for a FREE estimate to have a security light installed, please call 775-7260. Oberlin Municipal Light and Power
