Temporary Dumpster Service Rules

The number of temporary dumpsters is limited. Residents requiring temporary dumpster service are urged to apply early. Temporary dumpster service is suspended during the last two weeks of May each year.

Temporary dumpster service is provided only where the location is such that the City can deliver, service, and remove the dumpster. Trees, low wires, etc., may make it impossible to provide service at a particular location. Dumpsters must be placed on a paved or graveled surface, the City cannot back into yards or across grass to place or service dumpsters.

The person requesting the dumpster assumes all liability for damages resulting from the placement or servicing of the dumpster, including, but not limited to damage to yards, driveways, shrubbery, sidewalks, and buildings. A loaded refuse truck may weigh as much as 58,000 lbs. Damage to incompletely cured, substandard, weakened, or sandstone sidewalks is likely.

Temporary dumpsters are available in 6-yard capacity for a maximum of 3 weeks. Persons ordering a temporary dumpster are required to pay in advance for the dumpster at the Public Works Dept. located at 85 S. Main St.

- Basic Service:** \$75.00 for a one week period
Delivery of a dumpster for a one week period and collection
- Additional Collection:** \$37.50 per collection
Please call 775-7218 to schedule additional collections
- Additional Time:** \$30.00 per week
Two additional weeks maximum. Must be scheduled and paid for at the initial submittal of the application. In addition to the collection charge above, there shall be a weekly demurrage fee.
- Construction Debris Surcharge:** \$15.00 per service
- Refuse in excess of 6 yards:** \$12.00 per yard

Dumpsters are delivered on WEDNESDAY mornings. The City will make a single attempt to deliver the dumpster. If the dumpster cannot be set due to actions of the customer (e.g., cars in the way) a \$20.00 fee will be charged and the balance of the prepayment would be refunded to the customer. **There will be no other refunds or credits.**

Dumpsters are picked up on WEDNESDAY mornings. At the end of the scheduled period, the dumpster will be removed without further notice. If the dumpster cannot be removed due to the actions of the customer (e.g., cars in the way) a \$50.00 fee will be charged and added to their monthly utility bill.

The following materials shall not be placed in the dumpster: hazardous or infectious wastes, tires, storage batteries, appliances still containing refrigerants or in which the refrigerant was not removed by a licensed technician, brush, grass clippings or other yard waste (other than a nominal amount incidental to other refuse), waste oil, bricks, rocks or concrete, dirt or any material prohibited by State or Federal law from being landfilled.

If you are placing sheet goods such as plywood in the dumpster it must be cut into 4' x 4' or smaller pieces. Boards and structural lumber must be cut to 4' or less. The dumpster will not be serviced until materials are properly loaded. If you are placing shingles in the dumpster it can only be filled ¾ of the way full due to the weight. If the dumpster is completely filled with shingles it will be the responsibility of the customer to remove the excess. Loose items such as insulation or sawdust must be bagged.

White goods (stoves, refrigerators, washers, dryers) and large pieces furniture are not to be placed in the dumpster. These items should be placed in front of the dumpster so they can be loaded into the truck before the dumpster is serviced.

Do not overload dumpsters. Dumpsters are full when the material reaches the top sill. If the amount of materials in the dumpster and the materials stacked in front of the dumpster exceed 6 yards, the city will bill the customer \$12.00 per cubic yard.
